- Worked on UI improvements, API integration, and deployments

TRAINEE

Qspider, Gurugram

6 Months

- Training in Web Development, Java, SQL, and automation fundamentals

PROJECTS

TUNE PLUS - Music Distribution Platform

link : <https://tuneplus.org/>

- Designed, developed, and scaled a full-stack music distribution platform delivering Singles, EPs, and Albums to 200+ global streaming, social, and radio platforms, including fast Instagram/Facebook delivery, DDEX-compliant metadata, and YouTube monetization.
- Implemented secure role-based authentication, royalty tracking & analytics, high-availability Node.js/Express backend with MongoDB, and a responsive React UI, successfully handling 400K+ assets, 4K+ users, and 230M+ views.

Imergey - Social Media Management & Brand Strategy Platform

link : <http://103.189.173.7:2367/>

- Designed and developed a LinkedIn-focused social media management platform with post scheduling, analytics, API-based auto-publishing, calendar workflows, dashboards, AI research insights, and role-based user access control.
- Implemented peer scheduling, controlled visibility, asset & document management, reporting, and scalable backend APIs, enabling data-driven brand strategy execution with a modern, responsive UI.

Rajat Ganga Jewellery - E-Commerce Platform

Link: <https://www.rajatgangajewelsstudio.com/>

- Developed and maintained a modern jewellery brand website with product catalogs, collections showcase, and inquiry workflows, focusing on performance, SEO optimization, and responsive UI for better customer engagement.
- Implemented secure backend APIs, admin content management, and scalable deployment, ensuring smooth product updates, brand visibility, and reliable user experience across devices.
